What is Regulation D? (Six Transaction limit)

In consumer banking, "Regulation D" often refers to §204.2(d)(2) of the regulation, which places a limit of six withdrawals or outgoing transfers per month from [savings](#) or [money market](#) accounts via several transaction methods. Transactions counted against the limit include

"preauthorized or automatic transfer, or [telephonic](#) (including [data transmission](#)) agreement, order or instruction, or by [check](#), [draft](#), [debit card](#), or similar order made by the depositor and payable to third parties." Transactions not counted against the limit include "[mail](#), messenger or in person or when such withdrawals are made by telephone (via check mailed to the depositor).

The regulation was amended in 2009 to allow greater freedom for the depositor: beforehand, the limit was six withdrawals per month if the funds remained within the same institution (e.g., transfer to checking), but was only three drafts where the funds left the institution (e.g., check, [ACH](#), or card based purchase).
